

Postdoctoral Fellowships in Metabolism, Endocrinology and Obesity at the Boston University School of Medicine.

Applications from candidates with MD, PhD or MD/PhD degrees are encouraged to apply for postdoctoral training at Boston University Medical School and three positions are available as soon as July 1, 2016, funded by an NIH sponsored training grant (T32) under the leadership of Neil Ruderman, MD, DPhil, Director, Susan K Fried, PhD and Paul F. Pilch, PhD, co-directors. Funds can only be used for US Citizens or permanent residents.

Successful applicants will join a lab of one of an outstanding group of internationally known investigators at an institution with an exceptionally strong record of accomplishment in broad areas of metabolic disease. Potential mentors include the following P.I.s:

Caroline Apovian, MD, Lewis Braverman, MD, Richard Cohen, MD, Barbara Corkey, PhD, Stephen Farmer, PhD, Susan Fried, PhD, Noyan Gokce, MD, James Hamilton, PhD, Michael Holick, MD, PhD, Nawfal Istfan, MD, PhD, Konstantin Kandror, PhD, Mathew Lane, PhD, Zhijun Luo, MD, PhD, Lynn Moore, DSc, Barbara Nikolajczyk, PhD, Elizabeth Pearce, MD, Valentina Perissi, PhD, Paul Pilch, PhD, Katya Ravid, PhD, Sayon Roy, PhD, Neil Ruderman, MD, DPhil, Xarabalos (Bob) Varelis, PhD, Kenneth Walsh, Ph.D.

Additional information about the training program and the research foci of potential mentors can be found at t32endo.org

Candidates should send as a single PDF file, a cover letter indicating their area of interest and possible mentor, their *curriculum vitae*, and 3 letters of recommendation to Tracey West (Tracey.West@bmc.org).
